Girl, I just wanna talk to you, just wanna talk to you
Girl, I just wanna talk to you just wanna talk to you
When we rock, rock, rock, we rock right in the
When we rock, rock, rock, we rock right

Lately I've been thinking to myself
This playing around ain't really good for my health
Gettin' off the phone with Keisha and Rhonda
Hookin' up with Sherry and Tanya

It's too many girls just to keep up with
I know you heard about me 'Cuz the street be talkin'
But I'ma changed man and I'm ready to settle down girl
I wanna be the man that you run to
I'm everything that you need just let me show you

I wanna get with you, baby
Hold up don't be in a rush girl, I just wanna talk to you
And you know it's official, baby, gotta be more than a
crush
You got me trippin' off the things you do

I'ma prove it right here to you girl, but the truth be like
Give me a chance I know, I, I'ma show you right girl
There ain't no doubt, no doubt about it, girl, what you
need?
I got it, so what you say? How 'bout it? How 'bout it?
How 'bout it?

Now that I got your attention
I ain't tryna let this moment simply pass us by
And if I forgot to mention the way you light up the room
I love it every time you smile

What you know 'bout? One plus one equals me and you
Situations get sticky, baby, I got to hold it down
I'll always be around, girl, I'm everything you need
You gotta let me show you

I wanna get with you, baby
Hold up don't be in a rush girl, I just wanna talk to you
And you know it's official, baby, gotta be more than a

crush

You got me trippin' off the things you do

I'ma prove it right here to you girl, but the truth be like

Give me a chance I know, I, I'ma show you right girl

There ain't no doubt, no doubt about it, girl, what you need?

I got it, so what you say? How 'bout it? How 'bout it?

How 'bout it?

Girl, I just wanna talk to you, just wanna talk to you

Girl, I just wanna talk to you, just wanna talk to you

Girl, I just wanna talk to you, just wanna talk to you

Let's make it official, I wanna get with you, baby, can I talk to you

I wanna get with you, baby

Hold up don't be in a rush girl, I just wanna talk to you

And you know it's official, baby, gotta be more than a crush

You got me trippin' off the things you do

I'ma prove it right here to you girl, but the truth be like

Give me a chance I know, I, I'ma show you right girl

There ain't no doubt, no doubt about it, girl, what you need?

I got it, so what you say? How 'bout it? How 'bout it?

How 'bout it?

So how 'bout it?
