I got us an Itinerary. Afraid to fly girl dont be scary. I want to show you around the world. We only pick the ones with the special girl. Its somethin about the way you smile. Those dimples in your cheeks just drive me wild. And even though you're from, another country. You grew up a sexy honey.

Get your passport and visa ready. I know you got a man but is he really the one who is gonna treat you right. So take a trip with me you'll be satisfied. You should be treated like a queen. I'll give you all the love that you need. You got it first class everytime you'll see. All you got to do is let me know when you're free. And I will make the call and you'll be here with me. If you only knew how I been thinkin about you more then now and then. I'm crazy over you girl can't get enough of you girl.
