Miss, can we dance real slow?
With the lights down low
I wanna play ya body like a drum
And serenade you with my guitar strums

I wanna see you on the floor, girl
Come and shake it for the whole world
You can play the lead in my video
You're my superstar, no one can take ya role

Every Dee-Jay, make this the last request at your party
While the playas try to spit at them shawtys
So we can get out of here
So if you're spinning, you spin we win

I need ya body right here
So we can cut in slow motion
Bring ya body right here
You know I got that love potion

I need ya body right here
I'm good to the last drop, I'm like Folgers
So come and bring ya body right here
We be doing it over & over & over & over again

When we play hide-n-go-seek
Bet I can find your love right under those sheets
I'll do thangs that your man won't do
'Cause you're more precious than a treasured jewel

Here's the keys to my world, girl
I'll take you on a world tour with me, girl
All you gotta do is tell me that you want it
Won't you come and get it?
All you gotta do is say yes and you get it girl

Every Dee-Jay, make this the last request at your party
While the playas try to spit at them shawtys
So we can get out of here
So keep it spinning, you spin we win

I need ya body right here

So we can cut in slow motion
Bring ya body right here
You know I got that love potion

I need ya body right here
I'm good to the last drop, I'm like Folgers
So come and bring ya body right here
We be doin' it over & over & over & over again

Can I play with ya body like a drum
All night long?
Can I play with ya body like a drum
All night long, all night long?

Can I play with ya body like a drum
All night long?
Can I play with ya body like a drum
All night long, all night long?

Can I play with ya body like a drum
All night long?
Can I play with ya body like a drum
All night long, all night long?

I need ya body right here
So we can cut in slow motion
Bring ya body right here
You know I got that love potion

I need ya body right here
I'm good to the last drop, I'm like Folgers
So come and bring ya body right here
We be doin' it over & over & over & over again
We'll be doin' it over & over & over & over again, yeah

We do it over & over
Over, over, yeah
Over & over again
Over & over again
Over, over again

Over & over again
Over & over again
Over, over again
Over & over again
