Tim & Bob, Bobby Valentino
You know how we do
It's another one

Nas:
Girl can I get ya name & number
Can I relieve the pain ya under
Change it to comfort (uh)
Get inside ya brain
Ya never require game
As long as we remain
Doin the little things you love (you love)
Even if I'm a dangerous thug
All the names I called
Keeps you excited
To creep through & ride wit a live rich don
Who was raised in the projects
Can I just watch you (yeah)
Lemme see it break it down I gotchu
Any town we pop boo
Get around like Digital Underground & Pac do

[Verse 1]

I saw you walking
Down on Melrose
You looked like an angel
Straight out of heaven, girl
I was blown away by
Your sexiness
And all I have to do is, catch up to you

[Hook]

Slow down I just wanna get to know you
But don't turn around
'cause that pretty round thing looks good to me
Slow down never seen anything so lovely
Now turn around
And bless me with your beauty, (ooh) cutie

[Verse 2]

A butterfly tattoo
Right above your navel
Your belly button's pierced too, just like I like it girl

Come and take a walk with me
You'll be impressed by
The game that I can kick to you
It's so through and reeal

[Bridge]

Like a flower fully bloomed in the summertime, you're
ready
To be watered by this conversation, (I hope) you're
ready
I'm in awe cause you shine like the sun
Let me be the one to enjoy you (enjoy you)
Let's kick it girl

[Hook x2]

Oh baby you know by now that I want you bad
I'm floating on thin air, I can't come down
Cupid hit me already, damn
Now I can't leave til seven digits are in my hand, my
hand

Nas:

Are you tired of the same game, same drama
Same guys with the same game Bad karma
If I take you away from ya man that you wit
I just wanna borrow your kiss every part of you
Can you be a fresh girl (nasty)
Do anything I request girl? Then prove it
You need somebody to talk about things that's private
If you want to
Told you NaS would come through...

[Hook til fade out]
