[Intro]
oooooh, ooooooooh,Bobby V
oooooh, ooooooooh, come with me

[Verse 1]
Why are all the good girls taken
It only matter how much those you'll be taken
It aint how it use to be when all you needed was
personality
Love is an expensive club that I want to be a member of
But you gotta know how to log in
You need the right access number and pin

So, text 1785 if you need a real tight shawty in your life
Text 61123 if you need a girl to stick around and never
leave
Aye, its also confusing now and it bothers me
I need to find a girl who teach me love new technology,
does anybody know,
[Hook 2x]
Whats the passcode for love, caz I cant get no entry
Must have forgotten my code, caz love keep rejecting
me

[Verse 2]

A search across the sea, but nothing ever pass up on
the stream
So I just quick click back home refresh my page but I'm
still alone
Maybe I'll restore tomorrow and open up a whole new
window
Caz I know there's one worldwide but I'm must be
checking the wrong side
