And these feelings I did have, lately
Like I wanted you so bad
Were a caution to me that, maybe
I should have let you know the
World is spinning

Falling all around
The world keeps on spinning
Time keeps on spinning

You can't slow it down
The world keeps on spinning
Time keeps on spinning

World is spinning

And this fever I did have, lately
Did not seem so bad
When I watch through the window, pains me
Streets they are so mad

Falling all around
The world keeps on spinning
Time keeps on spinning

You can't slow it down
The world keeps on spinning
Time keeps on spinning

Falling all around
The world keeps on spinning
Time keeps on spinning

You can't slow it down
The world keeps on spinning
Time keeps on spinning

World is spinning

World is spinning
