(The sea will wash away)

(Time and tide)

(The sea will wash away)

I feel the oceans soul in the ways I see.
I wonder when it's fading, what it did... ** Not 100%
sure on this line
Does it know no one?
How can one be so alone, surrounded by so many?

(The sea will wash away)

(Time and tide)

There is no easy way to show it out.
I wonder if I can, change my past
Every water bonds, where it meets the coast line.
The birth of a brand new day...

Time and tide will rest the shore.
Time and tide will make it hurt no more.
Another day, another way, the sea will wash away. (The
sea will wash away)
Time and tide (The sea will fade away)
Time and tide (The sea will wash away)

(Time and tide)
(Time and tide)

Time and tide will rest the shore.
Time and tide will make it hurt no more.
Don't waste another day in vain. (The sea will wash
away, The sea will wash away)
Time and tide (The sea will fade away)
Time and tide

Time and tide
