

Bodies Without Organs "Open Door"

Visit "[Open Door](#)" on MotoLyrics.com

I've heard a lot of songs that were sung out of tune
But I learned to find the heart hidden deep in the
dunes
It brings it to the fore what it means to be there
When I hang on the core I've got music to share
Coming from above coming from afar
Coming from within is the voice of my heart
Heaven's got an open door tonight
Heaven's got an open door tonight
Heaven's got an open door tonight
We have found the time to get it right
Heaven's got an open door tonight
I used to have a dream gonna fly like a bird
Where I traveled way beyond of my own little world
Now I found the place I can spread out my wings
Keep on searching for the space I can rule like a king
I've seen a lot of things that have changed who I am
Turned a twist on Mother Earth holding back Uncle Sam

Like every story told always comes to an end
Closing chapters of a book let a broken heart mend
Coming from above coming from afar
Coming from within is the voice of my heart
Heaven's got an open door tonight
Heaven's got an open door tonight
Heaven's got an open door tonight
We have found the time to get it right
Heaven's got an open door tonight
All that I can say all that I can do
Every tune I sing I decide to be true
Everywhere we go taking in something new
Everytime we play everything that we do
Heaven's got an open door tonight
Heaven's got an open door tonight
Heaven's got an open door tonight
We have found the time to get it right
Heaven's got an open door tonight
