After the rain
I could see you crying
Suffer the pain
Like a river drying
After the rain
You're hiding from the daylight

Deep in a groove
Only walls around you
Nowhere to move
The state I found you
Deep in a groove
Lonely in the cold night

You're not alone
You're not the only one who hurts
You're not alone
This is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
You're not alone
Come, let me hold you

Castle of sand
There were promises
And future was planned
You hang onto a castle of sand
Suffering from stage fright

You're not alone
You're not the only one who hurts
You're not alone
This is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
You're not alone
I stand beside you

And when you walk in the valley of darkness
And when you feel you've been left on your own
I will stand there and wait for it beside you

I will guide you home
Come on home

You're not alone
You're not the only one who hurts
You're not alone
This is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
You're not alone
You're not alone

You're not alone
