You rock my heart
Yeah, ah, Bodybangers, in the place to be
You rock my heart
Rameez and Linda, yeah
Get out of control girl
I'm out of control (haha)
Here we go, yo!

Girl I'm out of control, girl you stole my controller
OD-ing on your love, loser players, game over
I'm gripping on the wheel, but end always derail
You've rocked my heart girl till the night through

You rock my heart, better know it
You rock my heart, so baby control me
You rock my heart, better know it
You rock my heart, feels out of control, feels out of control
(Bring the bass back on my spaceship)
Out of control
(Bring the bass back on my spaceship)
Feels out of control
(Bring the bass back on my spaceship)
Out of control
(Throw your hands up)

Here we go, yo!
I'll take you on my spaceship cause girl you are my spaceship
Sitting on my cockpit, let's both get loud
Out of control girl, I can't keep my composure
I'm going on your goods girl, I'm way past sober

Feels so out-out of control
Come rock my heart and let's go
Take me to places I've never been before
So all I touch is secure (?)
You rock my heart, give me more
Out of control

Here we go

You and me
My fantasy
You've lost it girl
Now bring it back
I love the way
You lose yourself
I'm out of control girl
You rock my soul

You rock my heart, better know it
You rock my heart, so baby control me
You rock my heart, better know it
You rock my heart, feels out of control, feels out of control
(Ah, I'm out of control girl, I'm out of control girl)
Out of control, feels out of control
(Ah, I'm out of control girl, I'm out of control girl)
Out of control
(Throw your hands up)

Feels out control, out of control
Feels out control, out of control
