"Tonight"

Tonight's the night, time is right
Me and my girls feel alright
We wear sunglasses at night
And dance until the sunlight
Let's keep the whole minibar
Until the dead will live on
Let's party hard, loose control
Tonight we get on the floor

Tonight, tonight, tonight...
Tonight's the night, here we go!

Tonight's the night, here we go!

Tonight we turn up the bass
Let's fly high up into space
We're superstars day and night
No doubt we are the highlights
We take so many hot shots
And maxing all credit cards
Let's dance on all tabletops
Now come on, let's break some glass

Tonight, tonight, tonight...
Tonight's the night, here we go!

Tonight's the night, here we go!
