All my bulbs are burning out
I've flipped the switch too much, too soon
Now, in the dark I just sit still to the rising of the moon
I would howl all night and all day
But the moon would not just go away
I searched too hard to ever find beautiful peace of mind
It's a fast horizon, it's a fast horizon
It's a fast horizon, it's a fast horizon
I am lost without a trace, the world's turning at too fast a pace
Sun, you've lapped me a thousand times
I just want a settled mind
And to the stars who have treated me so kind as to have waited behind
You may now go ahead and make me dizzy with your speed
It's a fast horizon, it's a fast horizon
It's a fast horizon, it's a fast horizon
And I'm on my way, yes, I'm on my way
Out of the door and on to the new day for the day
I'll just step back and study the dance, these feet are not ready to lead

I'll step back and study the dance, these feet are not
ready to lead

No, this life, it will be my lesson and I too one day plan
to dance

With the stars that are filling the space but still I'm just
a child

It's a fast horizon
