As we stood there older than men  
And younger than the boys (thats right)  
We were as still as the wind  
That blows on a hot august night

And you were lonesome  
As a jukebox  
But deadly just the same  
I could be as gentle as a newborn  
Then spit into the eye of a hurricane

And we knew how to laugh  
And we knew how to cry  
Yeah, we sure knew how to live  
But we dont ever

Never say die  
Never say die

I guess youd say we had a pact  
These words we knew so well (thats right)  
Still they remained unspoken  
And wed take them to the fiery  
Gates of hell

Once I was afraid of love  
But when its your brother  
Those things change  
cause love is just another word  
For trust  
So hear me when I say

Never say die  
Never say no  
You got to look them in the eye  
And dont let go  
When its your own blood youll bleed  
And your own tears youll cry  
When youre brought up to believe  
That its the strong who survive

Never say die

Solo

Yeah, and we could run like lightning  
Through the pouring rain  
And well be standing like a soldier  
Who comes marching home again

They ask what it is that I want written  
On the gravestone where Ill lie  
Tell them its just my bones  
That died there  
So save the tears theyll cry

My spirit is still riding somewhere  
Somewhere in this night  
When its these three words that come to me  
As I kiss this world goodbye

Never say die  
Never say no  
You got to look them in the eye  
And dont let go  
When its your own blood youll bleed  
And your own tears youll cry  
When youre brought up to believe  
That its the strong who survive  
Never say die
