Outside this world keeps turnin' 'round
London Bridge keeps burnin' down
But it'll be alright, ooh

No one hears our silent screams
In this land of broken dreams
But it'll be alright, when she comes

It'll be alright when she comes
It'll all be tight when she comes

And when I lie she still believes
She don't ask why, she's there for me
When it gets hard, she's all I need to get by

I hear her voice in a thousand places
I try so hard, still I can't escape it
She's the one, when she comes, yeah

And if the sky come fallin' down
I never ever even hear a sound
It's true, she's as great a red
Blue skies are blue

Everything's alright when she comes
Everything's all tight when she comes

And when I lie she still believes
She don't ask why, she's there for me
When it gets hard, she's all I really need

Everything's alright, when she comes
It'll all be tight, when she comes
When she comes

It's alright, it's alright when she comes
It's alright, it's alright when she comes
It's alright, it's alright, it's alright when she comes
It's alright, it's alright, it's alright when she comes
