

Bon Jovi "Wildflower"

She wakes up when I sleep
To talk to ghosts like in the movies
If you don't follow what I mean
I sure don't mean to be confusing
They say when she laughs she wants to cry
She'll draw a crowd then try to hide
Don't know if it's her or just my mind I'm losing

Nobody knows a wildflower still grows
By the side of the road
And she don't need to need like the roses
Wildflower

That girl's sure put a spell on me
Yeah, her voodoo's hidden right behind her pocket
If she's fire, I'm gasoline
Yeah, we fight a lot but neither wants to stop it
Well, she'll tell you she's an only child until you meet
her brothers
Swear she's never met the man she couldn't make into
a lover

[Chorus]

Nobody knows a wildflower still grows
By the side of the road
And she don't need to need like the roses
She's at home with the weeds
And just as free as the night breeze
She's got the cool of a shade tree
She's growin' on me and I can't live with out her

Yesterday's a memory
Tomorrow's accessory
That's her favorite quote about regret
Well, she'll tell you about her pedigree
With a sailor's mouth he'd have left at sea and it ain't
over yet

[Chorus]

Nobody knows *[x3]*
That's right

She wakes up when I sleep
To talk to ghosts like in the movies
