You say that I'm a hopeless romantic
'Cause I've been in love before
But baby since the first night I saw you
Things haven't been the same
I didn't know you had a steady guy
Always hangin' round
But I want you to know baby anytime
You want to change your plans

For you, I'd always be around
For you, I'd ride my life away
For you baby, I would if you'd let me

I seen you last night at the drive-in
You look lonely, all alone
Your eyes they were glued to the picture
Were you wishing you were at home
Do you stay up nights like I do
Do you start dialing the telephone
Do you dream of us
Lovers out on the town
Holdin' hands and fooling around

For you, I'd always be around
For you, I'd ride my life away
For you baby, I would, why don't you let me

I want you to know that darlin'
We could be like Romeo & Juliet
Maybe tonight if we go all the way
We've been through a lot
You just gotta say, I love you
And then well be out among the stars

For you, I'd always be around
For you, I'd ride my life away
For you baby, I would, if you'd let me
For you, I'd always be around
For you, lovin till the sun comes down
For you, baby I would, if you'd let me
