Consuming him from the inside  
Quietly it takes over  
Like a silent virus that lets you die  
As your body perish your skin left dry  
Though I try to fight it, I never win  
It never sets me free

Now that this illness has taken over  
Misery is all I know  
Contemplating suicide in my own mind  
Just to let me go

Welcome to a world beyond pain  
This world you won't escape  
Where evil reigns now you must suffer  
As you're left in pain
