Ever lovin' me
Don't stop ever lovin' me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love
Don't stop ever love

Please, I'm just a man, survivin'
Doin' what I can do when I can
I try to move in silence, like to keep it cool as a fan
I try to stay humble, chillin', real, down-to-earth's how I
am

But then this business get to pullin' me under
It's makin' me so crazy, should I leave it I wonder?
I probably should before it kills me, I know, but
My passions won't unleash and release me, I'm so
stuck

Forgive me Lord, but now I'm tryna to get right for the
cause
Don't wanna be standin' on that other side of the wall,
no, not at all
So please forgive us, because we know we in the last
days
We's a witness, so don't stop

Ever lovin' me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me

Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love
Don't stop ever love

I know I ain't livin' right, and gettin' it right is part of my
plan
But I been in the streets so long, I think a thug is all that
I am
And I'm gonna get it together, 'cause anybody knows
that I can
I can, yes, I can, can, yes, I can

I wanna grab my life before it's all gone
When I look at it, ain't did too much, so much of it
blown, gone
Gotta do what's right with what I got now
But it ain't more than what's comin' in right now

And now I'm left with choices
You can do right or you can do wrong
Won't get so nice right now, but we can hold on
But until that day comes, just keep

Ever lovin' me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love
Don't stop ever love

Now I've been high, so kind of obnoxious
Miss you walkin' around in my boxers
Miss you kickin' it like soccer
Other couples tryin' to mock us, hold on

Holdin' hands was never in my plans, and then you
came along
And made me your man, I must stand on my own two
Can't understand what we goin' through

This for me? No, this for you

But you was the one I shoulda really kept it realler with
But I fucked up and this is real as a killer get
And when we split, I was like a lost puppy
Had to man up, and stand up, so the next one could
love me

But until then, you know I'm gon' ride
With the glock cocked, keep it copped
I hope it don't stop

Don't stop ever lovin' me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love

Don't stop ever lovin' me
It's just the thug in me
Don't stop, don't stop the love
It's just the thug in me
