Flowâ€¦ round by the wind
(Flow motion)
Flowâ€¦ round by the wind [x2]

[Krayzie Bone]
Ride with me..
Ride with me..

[Layzie Bone]
Who is that coming with the tongue
Like the double edged sword?
talking out the neck
like we wouldn't push forward
but we murdered you niggas
and ran circles
'round you niggas
and we leave our competition
like where was none for us.
shit got borin'
back to the hood to where the thugs and fiends
sold crack in the hood
took my money
And my Trophies
And my Plaques to the hood
niggas weren't going out Hollywood not Bone
we keep it Gutta
Thuggish Ruggish from the 99
my paper hustle
been around the world a couple of times
Check the record
you can see I am working double time
give 'em something they can feel
when I'm on the grind
let the gangstas ride
In the summer time shine real bright
if you wanna get down,
let the top back slow,
take a drag of the dro,
flipping Bone time now,
you can burn that now!

[Chorus]

I flow when I go
In flo' mo', in flow motion
(Flow€ round by the wind) [x2]

[Krayzie Bone]

Try and keep up to the rhythm
of the nigga really figga you handle
I'll make you an example sample
when I stomp on these
some niggas at random
clear mother
mend the another
to get the phantom family
see me and I got to
run in hood, while they run around
they coming at chya
with a sound like thunder
Strike like lighting
hit 'em and they wonder
where the hell did all them Thuggish Ruggish niggas
come from bone bone
never be another fag
that can fuck with them thug Brothers
they all the same
they talk a lot but never got the balls to play
niggas better not
look at all this way
no not this way
but if they ever fizzle to the Gristle
Blow the whistle,
on the swizzle its official
and we back
to get it cracking
in the middle of the action
we got you in flow motion

[Chorus]

Flow€ round by the wind
(I flow when I go
In flo' mo', flow motion)
Flow€ round by the wind [x2]

[Wish Bone]

Point your fist
pull your pistol
put your finger in the middle
Ima show you
how to disrespect
a disrespectful nigga
let me loose fuck a Lawsuit

I gotta get 'em lay 'em up
some where
we cap spinnin'
you gonna get 'em
hospital Rehab
he alright one to the chest
one to the knee cap
I'm gonna keep it raw
so you know you better back off.
Twista said get 'em
so you know we 'bout to bite you
FS stepped up
fear when we roll up
everybody roll up
everybody toast up
get it twist a nigga
pay attaching to when you leave
with your grill-less
and feelings hurt
and shirt full of dirt
nigga we work with witch-it
I'ma busta nigga be-first
back again gotta be-heard
hada intermission but it's o-ver
it's so good back the flow motion on 'em

[Chorus]

I flow when I go
In flo' mo', in flow motion
(Flowâ€¦ round by the wind) [x2]
