-Layzie Bone- (Krayzie Bone)
(FLOW MOTION!....FLOW MOTION!)

Wanna ride...wanna ride...wanna ride.....you wanna
ride with me....,

Who was that cuttin' with a tongue, like A double edged
sword,
Talkin' out the neck, like we wouldn't push forward,
But we murdered you niggas and ran circles 'round
you niggas,
and we looked for competition but there wasnt none for
us,
Shit got bor'n, back to the hood,
where the thugs and the fiends sold crack in the hood,
Took my money and my trophies, and my plaques to
the hood,
Niggas wasn't goin' out Hollywood, not Bone,
We keep it gutter thuggish ruggish niggas from the
nine-nine,
I flip a hustle, been around the world a couple times,
Check the record you can see I'm working double time,
Give 'em something they can feel when I'm on the
grind,
Let the gangsta's ride, in the summer time shine real
bright,
did you wanna get down?, Let the top back slow,
take a drag from the dro, 'cos is Bone's time now, you
can burn that now.

-Chorus-
I flow, when I go, in flow-mo, I flow flow when I go, in
flow-mo,
I flow, when I go, in flow-mo, I flow flow when I go, and
flow mo (FLOW MOTION!)...
(X2)

-Krayzie Bone-
Try'nna keep it to the rhythm if a nigga really figure
you can handle,
I'll make you an example, sample, when I start releasin'

lyrics at random,
Clearin' on 'em makin' out just like a phantom, family,
See me with a gun doin' a hundred while I'm runnin,
comin' at ya with it sound like thunder, strike like
lightnin',
Hit em and they wonder, where the hell that all them
thuggish ruggish niggas come from, Bone-Bone,
Never be another that can fuck with them thug
brothers, they all the same,
They talk a lot but never got the balls to play,
Niggas better not look at all this way, no not this way,
Whenever we gon split em to this grissle, blew the
whistle, on the Swizzle it's official,
And we about to get it crackin' in the middle of the
action, We got cha' n'(FLOW MOTION!)

-Chorus-

Ball your fist through the pistol, put your finger in the
middle,
I'ma show ya how to disrespect 'em, disrespect 'em,
nigga let 'em loose,
Fuck the lawsuit I gotta get him, lay him up,
From where we cap, spit it, you ain't gonna get it,
Hospital rehab, here I right one to the chest to the
knee-caps,
I'ma keep it raw so you know you better back off,
Swizz said get 'em so you know we 'bout to bite ya'll,
F.S. yup, yup,
See when we roll up, everybody roll up, everbody toast
up,
Get it twisted nigga pay attention when you leave,
with your realness and your feelings hurt, shirt full of
dirt, nigga we work with cha,
I'm thuggsta...nigga B first/ Back again and get it,
gotta be heard,
Had a intermission but it's over, it's over, Back to flow
motion on them..
