I love music(what kind of music)

(Chorus 2x)

We love the reggae and jazz and rock and roll could be cool alternative too we love the rhythm and blues but I'm a hip hop baby from the heart I'll never flip flop baby

(First Verse: Layzie Bone)

If it wasn't for my music tell me were would I be were would I be probably standin' on the hot block sellin' crack rock runnin' them streets runnin' them streets. I say my music is my best friend my confidant I love the way we live as one together we the perfect bond. Me and my radio doin' 90 on the freeway knowin' the way to go, and I like to feel the rhythm the beat be bumpin' don't it and I love to give it to y'all because I know you want it. And if you feel like I feel you love the rhythm and blues reggae and jazz some rock and roll could be cool but I'm a hip hop baby from the heart and never flip flop baby gimme a drank and a song and I'll be stress free kickin' it all night long.

(Second Verse: Krayzie Bone)

It ain't nothin like hip hop music carefull how you use it and please don't abuse it when you do it. Music can keep the party people dancin' and put your mind in a trance and keep you happy, give it a chance come on just flow with the music get blowed off the music. When I was 13 like Dr. King I had a dream to be one of the greatest musicians alive truely remembered when I die I love I love music it's got me stayin alive, and if you take my mic right now one thing you'll never do is take my love away 'cause I'm a hip hop baby from the heart and never flip flop baby.

(Chrous 2x)
