I'm gon' make sure you never forget me
Konvict

Goin' through the struggles every day on this
pavement
And every hood, I see 'em doin' the same
There's a lotta haters that don't want me to make it
All I want is for you to remember my name

So that you never forget me
So that you never forget me
So that you never forget me
So that you never forget me

When I'm dead and gone
They gon' remember me as bein' one of the livest
Genuine ghetto survivors
Anything time to reside probably remind us

Silent killer, straight out the ghetto
A grimy *** but lyrics more potent than a viper's venom
When strike to kill 'em I get at him
*** never knew what had hit 'em

Legends for what we done did on the streets
And what we done spit on these records
Blessings, we take 'em and put 'em on beats
And we give 'em back, no question

Granddaddy get the Midwest
Krayzie Jackson, the lyrical serial killer
I feel 'em illest of ***
That's askin' about the mind and master

When it comes to the rhyme
I'm faster than half of these *** rappin'
When it comes to the grind, I'm mashin'
No time for second chances

When it all goes down
When they put me in my grave
It's '*** Them All' across my tombstone

And bury me with my gauge

Goin' through the struggles every day on this
pavement
And every hood I see 'em doin' the same
There's a lotta haters that don't want me to make it
All I want is for you to remember my name

So that you never forget me
So that you never forget me
So that you never forget me
So that you never forget me

My reputation is solid, dawg
And my street cred is unpolished, y'all
Known as a little boss hog in the hood
Boy, in my hood I'm a superstar

In the past try to hold a *** down
When I put in my work and check it, check it
Now these *** respect it
And know I'm the wrong one to mess with

From the gutter with my brothers
Knowin' these ghetto streets, they don't love us
Duckin' these undercovers, these motherf***
Doin' everything, they to try to bust us

But these suckas know they can't touch us
They envy deep in they hearts
If they ever try to rush us
They know we gon' rip 'em apart

Go hard from the start
This Nina Ross is my bodyguard
*** with mine and I charge
Lil' Crazy *** at large

Wheelin cars, on these lanes ***
I never let go of my heat
Yeah, a stand up man on his feet
Little Layzie Bone on the creep
***, creep

Goin' through the struggles every day on this
pavement
And every hood I see 'em doin' the same
There's a lotta haters that don't want me to make it
All I want is for you to remember my name

So that you never forget me

So that you never forget me
So that you never forget me
So that you never forget me

What I got to do for you not to forget
Who brought you that straight Thug spit
Sped up a little bit with gangsta talk
With that Harmony all over it, hey

Bone same, doin' this still with that street talk
And with no delay, Eazy-E, let us get our creep on
And then he went home, but it's all good
He left the right words, plus he still in the hood

Rest in peace, Big E, like him when I die
I hope they remember me, me, that's why I no lie
When I reach you with these beats, beats

Took not for nothin'
Remember the Thugs for the songs that we sung
And makin' it through that struggle, that struggle

It ain't easy believe me, we ain't breezy, believe it
Still goin' on, hustlin' bein' strong
But I do it so they remember me

Goin' through the struggles every day on this
pavement
And every hood I see 'em doin' the same
There's a lotta haters that don't want me to make it
All I want is for you to remember my name

So that you never forget me
So that you never forget me
So that you never forget me
So that you never forget me

Goin' through the struggles every day on this
pavement
And every hood I see 'em doin' the same
There's a lotta haters that don't want me to make it
All I want is for you to remember my name

So that you never forget me
So that you never forget me
So that you never forget me
So that you never forget me
