

Bonfire "Desire"

Visit "[Desire](#)" on MotoLyrics.com

So many words - you wish to say
So many tears - all cried out in vain
Hold me - love me - the beat of a lonely heart
You try to hide - your heartache inside

You find yourself - in your favourite dreams
Nobody knows - how it hurts and how it feels

CHORUS

Desire - burning in your heart
Desire - pleasure and pain
Desire - tearing your heart apart and it holds you like
In chains

Moments of love - passing you by
Moments of truth - upwaking sighs
Free me - save me - songs of a lonely soul
Night's falling down - and you're dreaming away

You walk alone - down those empty streets
Nobody knows - how it hurts and how it feels

CHORUS
