"Do You Still Love Me"

Visit "[Do You Still Love Me](#)" on MotoLyrics.com

I still remember our love
A promise for a life time
I still dream about you - won't wake
I wanna sleep forever

If Heaven is without you
Don't wanna step into the light

Do you still love me the way I love you
Do you still need me like the way I do
Do you still want me - the way I want you
Do you still dream about eternal love

Footprints for lovers - skin, deep
Scars of true affection
Still feel the fire
Each Thought's a sigh of my devotion

How could I ever lose you

I wish that I could turn back time

Do you still love me the way I love you
Do you still need me like the way I do
Do you still want me - the way I want you
Do you still dream about eternal love

When love rules your heart
It's Heaven and hell
I can tear you apart - who can tell

Do you still love me the way I love you
Do you still need me like the way I do
Do you still want me - the way I want you
Do you still dream about eternal love
