Ooh, ooh, yeah
Ooh...

Woke up this morning, can't clear my head
About the night before
Misunderstanding about the things that I said
I can't take it no more, no

All night I kept talkin' to you
But just heard echoes from the wall

Don't get me wrong (don't get me wrong)
I'm on your side
Don't get me wrong
'Cause you are just afraid of loosing your pride

I don't run for cover, I've got nothing to hide
It's just your jealous mind
Cards on the table, but you're still acting blind
Am I just wasting my time, yeah?

It's like a nightmare what you're putting me through
Can't you forget your foolish games, oh oh, oh oh oh

Don't get me wrong (don't get me wrong)
I'm on your side
Don't get me wrong
'Cause you are just afraid of loosing your pride

Don't get me wrong (don't get me wrong)
I'm on your side, oh oh
Don't get me wrong
'Cause you are just afraid of loosing your pride

(Don't get me wrong) Don't get me wrong
(Don't get me wrong) Don't get me wrong
(Don't get me wrong) Don't get me wrong...
