Remember the winters... when time it just stood still
Making love by the fireside, God it felt so real
And I still feel it burning... when I look into your
Eyes
Time was all we had to waste and I never wondered
why

I remember the summers... and the never-ending
nights,
Yeah
We drove around forever and ever knowing it was right
But sometimes we could see... into the eye of the
Hurricane
It's love and pain, it's one and the same

Every single breath we took was full of emotion
No matter what they say, we'll never walk away

Chorus:
For love, we'll always fight for love
No you'll never have to cry, no I'll never say goodbye
For love, we'll always fight for our love
Like a light into the darkness...
I will show you, I will show you how

I remember the springtime, we were kids and playing
Love
Growing older and so much bolder, we couldn't get
Enough
We always took for granted... that everything would

Turn out right
But dreams were not enough this time, this time we
had
To fight, yeah

Every single little time we kissed was more than a
Promise...
That we'll take each other's hand... and we'll make
The final stand

Chorus

How to find the way, oh oh
We're fighting, fighting for love

For love, we'll always fight for love, baby
No you'll never have to cry - you'll never have to cry
No I'll never say goodbye
For love, we'll always fight for our love
Like a light into the darkness...
I will show you, I will show you my love
We'll always fight for love
No you'll never have to cry, no I'll never say goodbye
For love, we'll always fight for our love - we'll stay
Together
Like a light into the darkness...
I will show you, I will show you how

Fight for our love
Ooh oh oh, baby
Fight for our love
