Close your eyes -when memories are fading
Hold me tight-'til death do us part
Dream away-the tears you've been cryin'
'Cause love will rise again

Love is like the unknown answer
To the questions of your heart
Love is patient-love is kind
Don't you let it slip away

Love don't lie-love don't lie
Love don't lie-love don't lie
Love don't lie

Drift away-on the oceans of your feelings
Here to stay-is the emptiness inside
Time goes by-while your heart is held to ransom
'Til love will set you free again

Love is like a clear blue river
Love is more than words can say
Love don't envy-love don't hurt
If you only let it be

Love don't lie-love don't lie
Love don't lie-love don't lie
Love don't lie

Love don't lie -love don't lie
Love don't lie -love don't lie
Love don't lie

Love is like the uncut diamond
Hiding in your heart to stay
But love ain't love -'til you finally give it away
It's coming back to you someday

Love don't lie-love don't lie
Love don't lie-love don't lie
Live don't lie
