Like a candle in the wind - sometimes I'm getting weak  
But who'll be there - to dry the tears I'm cryin'  
Like a rainbow in sky - when the sun kisses the rain  
I can't tell - when and where I'm going  
Cold winds are blowing strong  
But who will be by my side - and keep me warm through  
The night  
And when the bottle is your only friend - I realize

### CHORUS

I am just a Rock and Roll Cowboy  
Riding down these streets alone  
I'm wanted like an outlaw  
But someday I'm coming home  
To get my piece of heart and soul

Like a bird who learns to fly - I left my sheltered  
Home  
But I lost my way and sometimes lost my senses  
Like a champion in the ring - who's drowning in his  
Fame  
I forget the pain I paid for glory  
Too late for me to say good-bye  
I can't turn back time - when my life was mine  
But it's not too late to make a brandnew start -  
Because I know

### CHORUS

Baby cause I gave it all for Rock and Roll
