Livin' day by day - your conscience's far beyond of red  
alert  
Bad turns into good - and justice is not more than just a  
word

Showtime for the Great Pretender  
Selling you his lies  
He won't be your soul defender The day - you gonna  
die

Strike back - set your heart on fire  
The devil is a liar  
Strike back - raise a msile in heaven  
Fighting fire with fire - Strike back  
Strike back

Hungry children die - and you go on a diet with  
champagne  
Donations cut your tax - but they don't ease the cryin'  
mother's pain ain't that  
insane

Welcome Mr. Satisfaction  
Welcome Mr. Greed  
He won't give you soul protection  
Now - you gotta fight - alright
