Running for her something
Looking for someone
That's why I needed you so badly
Searching such a long time you head on me life lie
Then you hurt me like a hammer

Wooooooo

I can't take it anymore
I can't live with you I'm without you
It's the price of loving you
I don't know the fake on me truth
I'm being the price of loving you

All I know is that I want you
I want youuu

Signed baby you brake me
You play with my witness

Devil just like an angel
You tast just like heaven
But your love is poison
No, my damn baby
