"Wait For You"

Gone tomorrow
One day closer to your heart
Lost around me is time
In itself when you're near

Take the time
I'll show you the lover for you
You're too young to know
What it is that I feel

[CHORUS]
All that I can do is wait for you
Just wait for you
All that I can do is wait for you
Just wait for you

Full of sorrow, your eyes
Are too wide and too new
Though I know these feelings
I get when you're near

Even I, I can't give
You love without fear
You're too young
I don't know what's keeping me here

[Repeat CHORUS 2x]

All that I can do
