Strollin' through  
Elysian fields with you  
Our lush first hypnotic phase  
Cooing words meltin'  
Ice glaciers keep me turning to the next page

[Chorus:]

Everday is our first time for something new  
As compelling as you are to me I am to you  
Curiosity has me peeking through your kingdom of  
pretty  
A formless flow of magical symphony consumed by the  
fragrant possibilities

Curiosity has me peeking through your kingdom of  
pretty

You feel familiar  
A comfort that comes with years  
Sparkles flush my skin  
I swelled up in tears  
As I trace your footsteps around the world  
Crushin' over you like a little girl  
I flutter among the butterflies

[Chorus]

You're so pretty (2x)
