I woke this morning  
After dreaming of you, last night and  
You got me burning baby  
Rapture shaking up inside me

I was your temptress  
Obtained in your kiss,  
You were busy terrorizing  
My body's every

Wish I could fall back into  
My sultry sleep, I  
I want to here your heart beat right up  
Against me

I can not hide it  
I can not fight it, no more

Ooo yeah, lets fly...  
And rise like my fever  
C'mon over because I'm in need of  
The high that you give me  
When I close my eyes and fantasize  
You're here with me

I know it's crossed your mind from time to time  
A strong desire since your eyes first met mine and  
I was never so ready as I am right now  
C'mon and take my hand let's cross the line  
I'll show you how

I cant control it  
I can not hold it no more  
You are the only man  
I, I want to adore and

I can not fight it  
I can not hide it no more  
I'm waiting for you now  
Lets fly.....

And rise like my fever  
C'mon over because I'm in need of  
The high that you give me  
Then I close my eyes and fantasize  
You're here with me

I've been waiting for you  
To make that move  
But I cant wait anymore  
Come over here and kiss me  
I want a taste of my dream

And rise like my fever  
C'mon over because I'm in need of  
The high that you give me  
When I close my eyes and fantasize  
You're here with me (3X)
