Purely intense amazing  
Exquisitely devastating  
I'm in a daze and I'm  
Drenched in our moment

Suddenly life is spectacular  
A decade full circle brought me back to you  
Always the boy with the yellow rose  
I just could not forget

[Chorus]  
And I feel safe now  
That's where I want to be  
I can breathe in this serenity  
I will chase down both our armies  
No more historical calamity here  
No more historical calamity here

You inspire me fiercely  
Reconcile negativity

My fear I placed before the union of two

Relentless in your chivalry  
Love to lick your lips so thankfully  
Always the boy with yellow rose  
Peacock feather and baby's breath

[Chorus]

My vision is to follow through  
I patiently waited this long for you  
So completely consumed  
God you're beautiful  
The whole world fades in a crowded room  
A decade full circle brought me back to you  
Always the boy with the yellow rose  
I just could not forget

[Chorus out]
