Sometimes I think of me and you
And every now and then
I think we'll never make it through
We go through some crazy times
And there are times I wonder
If I'll keep lovin you
But I always do

Seems that love always finds a reason
To keep me here believin
When I feel our love
Is slippin away
Seems that love always finds a reason
To make me stay
And even through the darkest night
The feelin survives
Seems that I can just look at you
And I find the reason in your eyes,your eyes

I know sometimes you wish that you were free
I know sometimes you wonder what
You're doin here with me
But sometimes keeps you by my side
Through everything
Through all the times we disagree
You keep lovin me

Seems that love always finds a reason
To keep me here believin
When I feel our love
Is slippin away
Seems that love always finds a reason
To make you stay
And even through the darkest night
The feelin survives
And you know when you look at me
You'll find the reason in my eyes,in my eyes

INSTRUMENTAL

Oohooh
Don't let it slip away

Love always finds a reason
To keep us here believin
When we feel our love
Is slippin away
Don't you know that love always finds a reason
To make us stay
And even through the darkest night
The feelin survives
Seems that I can just look at you
And I find the reason
Baby,I find the reason
In your eyes,your eyes
