Walking down the road last night  
got to thinking what you said  
said you want to set me free  
said you want to let me be

Baby, baby, what will I do now

Round and round inside my mind  
pictures forming with no sound  
I can see you over there  
I can see you walk away

Oh, what will I do now  
Oh, what can I do now

Now - turn and walk away  
you won't hear me say  
love you too much, love you too much  
oh - that was yesterday

Baby, love is not a game  
yes, we're really both to blame  
it's no good to try and pretend  
that our love will never end

Oh, what will I do now  
Oh, what can I do now

Now - I turn and walk away  
you won't hear me say  
love you too much, love you too much  
oh - that was yesterday

Oh, what will I do now  
and oh - what can I do now

Oh, what will I do now  
and oh - what can I do now
