You bring your love to my life

Through all my tears and my strife

You're always giving and easy.

You took me to the seventh heaven with your true love.

I feel that only you can heal the emptiness I've known

Your open door will show the way to truth.

Straight from your heart
light in the dark

The gift of your love shines on
straight from your heart.

When days are dreary and blue I turn my faith unto you

You give me hope for tomorrow.

Your morning star will shine unto my soul forever.

This gift of love you gave to me
was just a dream before

I can't hold back this love I feel for you.

Straight from your heart
light in the dark

This gift of love you gave to me was just a dream
before

I can't hold back this love I feel for you.

Straight from your heart
