It was a chill of hope  
Deep in my soul  
Tearing down my troubles

Passion by your words tonight  
Reflecting the power of love

Beyond the darkness  
Your light shined  
Lighting the way to your heart

This burning love  
You give to me  
Is the power to rise above

You're the one I'm coming to  
Oohooohoh

CHORUS

Baby you are the one that I come home to  
Nobody else feels so good to me as you  
You are the one, you are the one

You are the one, you are the one

Anything you want from me  
I'll always be ready

Underneath your perfect touch  
Tears and fears disappear

Life is one  
And one are we  
Together we'll always be strong

(Repeat Chorus)
