Candy apple red, red lips
Candy apple kisses too
And I have the lips of a fool
I kissed you
Candy apple red, red lips
Sweet, sweet with lies they told
And I had the mind of a fool
I believed
Candy apple red has made it blue
Babe, nearly all the things you said
I believed in you
Candy apple red, red lips
Hypnotize me, broke the rules
New color caramel
Candy apple red and
The blue, blue heart of a fool
