"Sitting In The Sun"

Sitting in the sun
waiting for life begin
looking for a sign
where it starts and where it ends
and the trees sway to and fro
like the friends we've come to know
stand tall grow as one
come together one by one
above the wind thy will be done
stand tall grow as one
sitting in the sun
sitting in the sun
Baring to the fates my back
we shall all but pass
through pale rewards may wane and wax
veiled in obscurity
is the answer hard to see
stand tall grow as one
come together one by one
above the wind thy will be done
stand tall grow as one
sitting in the sun
stand tall and grow
together everyone
