Your name  
a night without end  
I pray the Lord is keeping  
Two doors  
You stand or you sleep  
I'm still waiting for you to come in  
I can remember  
Your eyes shining  
I hold a handful  
of your ashes  
How can you leave me here to  
Dig your grave  
and bury my fear  
Your voice keeps calling to me  
Dig your grave but  
Don't disappear  
Goodbye  
a sword double-edged  
Swallow and  
I'll stop beating  
Two doors  
You stand or you sleep  
I'm still waiting for you to walk in  
I can remember your eyes shining  
I hold a handful of your ashes  
How can you leave me here to  
Dig your grave  
and bury my fear  
Your voice keeps calling to me  
Dig your grave but  
Don't disappear  
shine on  
shine on  
shine on
