no town is better
is better than other
and nobody town
is your kind of town
they scared of you
and you're scared of they
but don't be afraid
to be yourself
in this small town

picture yourself
grabbing a baloom
you cover to
to the perfect day
but don't afraid to go
i'll be around
with you
in this long road

this is the ballad of a broken heart
this is the story of my twenty years old
this is the ballad of a broken heart
this is the story of my twenty years old

no town is better
is better than other
and nobody town
is your kind of town
they scared of you
and you're scared of they
but don't be afraid
to be yourself
in this small town

this is the ballad of a broken heart
this is the story of my twenty years old
this is the ballad of a broken heart
this is the ballad of
i talked about of
me

you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
you gotta choose better
you gotta choose better
you gotta choose better
you gotta, you gotta
