Struggling my, struggling my way
Wishing and wanting for more n' more these
All these are diseases
Master flow and blow me up
Struggle
Try not to do as you please
Or else feel, you feeling dukkah
But it makes me feel I'll
It makes me
I've gotta live a life, make a way

I've been struggling way
I've been struggling way
I've been struggling way
I've been struggling way

We are simply drifting
Only the ashes are left
Money we save
The body we've got
Everything ends up in the fire
DUKKAH!
It makes me feel I'll
It makes me
Forever a price to pay
But I don't want this
In the end
Struggle struggle struggle
Soon, I will dissolve into the air
In the air
I'm a loon, I swoon

I've been struggling way
I've been struggling way
I've been struggling way
I've been struggling way
