No way outta here and nothing to feel
I thought I had a treat in the refrigerator
It's time to wake up and smell the coffee
I'm falling back to sleep when it's over
Let yourself down, down on your knees
Please ease along in the morning after
Once again I'm back to where I belong
So come over, come on over
Drink it up
You better wake up
I wanna move on
I'm doing better now
Don't let your mind rot
What are you afraid of
Face to face in the morning after
Sooner or later I'll come closer
No one else that could ever do
Rip it up
You better watch out
To get your freak on
I'm just killing time

How many ways to show you how I feel
Sometimes in dreams you're near to me then
I'm up and I will take you anywhere
Faster and faster tripping to nowhere
Going down and out in paradise
Day after day, no hiding anywhere
How many more times, how many more times
I wonder how come you treat me bad
Roll it up
There ain't no need to hide
I gotta ride on
You better sign up
Don't let your mind rot
What are you afraid of
Face to face in the morning after
Sooner or later I'll come closer
No one else that could ever do
Rip it up
You better watch out
To get your freak on

I'm just killing time
