Push now
I'm always behind you
I can be whatever shape

If you want to leave
It's now
Push eject
Push now

No fluke
Trust me
I will make you feel good

Push now

I'm always behind you
I can be whatever shape

Push eject
Push now

Push now

I will take you up
On a new venture
Coming to your intentions
How does it feel to possessed by me?
Better than your usual self?

Push now
Push eject
