Traxing from capetown to Addis Abbaba
Natty never cross no border
No border fence can separate us no
JAH love is everywhere
(chorus)
Let us unite come together do it right
Mek we unite come together do the right thing (x2)
So people get ready ready now
Tomorrow might be too late for you to make your
moves
I got no time to hesitate JAH love is the fire
My love is like JAH fire
Is a long time poeple been struggling
Fighting to reach the shore
Fighting to even the score
(chorus)
Standing on the corner
Checking out the border clash
All this fussing and fighting
I don't know what they're fighting for
They claim it's a different country
But it's same blood run thru all veins
Same cry in all a these ghettos
Babylon system dread
