

Boom Boom Satellites "Vapour"

Visit "[Vapour](#)" on MotoLyrics.com

Roaming around
Painted my face
Find my way out
I can tell you
Well, I'm just vapour
You're quick to squeeze me
I'm lost in karma
No one can salvage
I'm moving down
You follow one day

So Don't live fast
Live fast
Lost in you
Live fast
Live fast
Lost in you
Live fast
Live fast
Lost in you
Live fast
Live fast
Lost in you

Pulling my teeth
Make it go round
So I can't breath in and out
Filling my sleep
Twisting around
I can taste it
Down and out
Down and out

Walking about
Twisted my hair
Someone who cares
Feel so freaky
I fly like paper
Caught up in myself
I'm sick of this place
Hiding the fury
I float on thru

We can be alone

So Don't live fast

Live fast

Lost in you

Live fast

Live fast

Lost in you

Live fast

Live fast

Lost in you

Live fast

Live fast

Lost in you

Grabbing my hand

Let me inside

Take it slow... I'll end this day

The Rain comes down

Washing the sin

Keep on moving

In and out

In and out

I trace it along

Starting over now

'Cos I wanna wake

It's too late to find

May be later on and on

On you

Roaming around

Painted my face

Find my way out

I can tell you

Well, I'm just vapour

You're quick to squeeze me

I'm lost in karma

No one can salvage

I'm moving down

You follow one day

I'm moving down

You follow one day

I'm moving down

You follow one day...
