Hey hey
Hey hey
Hey hey hey

Staring out through the cracks and dirt
Watch it trickle watch it overflow
Gain momentum swallow simple life
Never want it never want you around now

I live in a home now is it a home
I'll protect you I'll protect you
Still protect you
'Cos people in this town keep staring at the mighty wall

Great wall
Hold back desire still comfort me
Great wall
Don't tear it down around my feet

Hey hey hey

Kiss my cheeks so the children don't know
Fight desire fight it blow by blow
You had a heart now show me your heart
'Cos people in this town keep staring at the mighty wall

Great wall
Hold back desire still comfort me
Great wall
It's tracking on now can't you see

Great wall
Hold back desire still damp my fear
Great wall
Do come again I need you here

Great wall
Great wall

Hey hey
Hey hey hey

I'll protect you I'll protect you
Still protect you
People in this town keep staring at the mighty wall

Great wall
Hold back desire still comfort me
Great wall
Do tumble down around my feet

Great wall
Hold back desire still damp my fear
Great wall
Do come again I need you here
I need you here

Great wall
Great wall
Great wall

Hey hey
