You burned her letters all the way (all the way)
Stay quiet, follow what I say
You're mine tonight
Black clothes and black make-up
It's so fresh to be fucked up (to be fucked up just with me)
You're praying for an escape
But you'd better give it up

You want more than you gave her
You're sick of waiting outside (waiting outside)
You want your name on this paper
You've been crying inside (crying inside)

I'll make your life a runaway (a runaway)
Girls and novocaine everyday

With me behind
You're forgetting the shame
You'll never be the one to (be the one to blame)
Anyway, you know you're caught
You'd just better give it up

You want more than you gave her
You're sick of dying outside (dying outside)
You want your name on this paper
You've been bleeding inside (bleeding inside)

Give me your soul
And I'll be gone
You begged me, you used me
Time for you to pay
You're mine

Die...
