hmmmmmmmm hmmmmmmmm hmmmmmmmm..

Take me as I am
take my heart, my soul, my love
Please dont make my lie
Take your trust, believe and precious time
I love the way you move
lifts me up everytime you passing by
I love the things you do
I love the things you do
My heart, my soul, my mind

oehhhhh Yesterday is gone but tomorrow will pass
New day wil dawn and new love comes alive
road could belong to us to survive
yesterdays gone so please take me as I am
oohh...

See me as I am
I'm as good as bad as everyone
and please believe in me
In my heart, my soul, my mind
And we could compromise
Start again, leave the sky behind
and we don't have to lie
no lies, no games, no alibies,

ooooh
Yesterday is gone but tomorrow will pass
new day will dawn and new love comes alive
road could belong just for us to survive
yesterday is gone but but tomorrow will pass
new day will dawn and new love comes alive
the road could belong just for us to survive
yesterday is gone
So please take me as I am
